How we live

**Contemporary Interiors:
A Source of Design Ideas**
by Philip Jodidio
(Rizzoli)

A must-have design source, with cutting-edge ideas from the world's best designers and architects. "Contemporary Interiors" showcases a wide range of twenty-first-century residences by world-renowned architects and designers. Filled with more than 300 color illustrations, specialist Philip Jodidio compiles from around the globe fifty of the most innovative homes designed and built within the last five years.

Whether urban or rural, large or small, the book has projects that are international in scope: a summer home in Montauk by Roman & Williams, Houssein Jarouche's apartment in Brazil by Triptyque; a David Adjaye house in West London; a Luxembourg "eco-green" house by Richard Meier; a Studio Mumbai Palmyra house in India; a Shigeru Ban-designed villa in Sri Lanka; a Tadao Ando house in Monterrey; Sean Godsell's Edward Street House in Melbourne, Australia. The book has hundreds of design ideas from minimalist white to cozy color that can be applied to each room of the house.

Author and renowned designer Bunny Williams has been at the top of the interior design world for more than 40 years. Her new book invites readers to explore La Colina, Williams's lovely Caribbean retreat tucked into lush, tropical gardens by the sea. The book explores every facet of the property—from outdoor rooms and garden plantings and design to the delightful, island-living luxury of the villa's interiors, furnishings, and collections. Woven into each chapter are essays written by friends who have visited the property.

Dream Treehouses: Extraordinary Designs from Concept to Completion
by Alain Laurens, Daniel Dufour, Ghislain Andre, La Cabane Perchee
(Abrams, Harry N., Inc)

French design company La Cabane Perchee presents 40 extraordinary treehouses designed and built by the acclaimed team. Featuring houses in France, Switzerland, Belgium, Denmark, Russia, Italy, Spain, and the United States, Dream Treehouses showcases both exterior and interior images of each house. In addition, the book includes watercolor design drawings and descriptions of how each house was envisioned and built, offering a beautifully and extensively illustrated look into some of the most fantastic treehouses ever created.
